2018 Property Tax Rates

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the review of 2018 Property Tax Rates

Background	Property taxes largely fund public schools and are the main source of revenue for many of Missouri's special purpose political subdivisions and county boards. The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file final proposed tax rates and data supporting the proposed property tax rates with the county, using forms prescribed by the State Auditor. The counties submit the supporting data received to the State Auditor for review. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.
Rate Calculations	Rate ceilings set the limit for the amount of taxes that can be levied. Each tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of each tax rate ceiling is based on the assessed valuation for the entire political subdivision and is not calculated on an individual taxpayer basis. The 2018 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Missouri Constitution, Article X, Section 22, commonly referred to as the Hancock Amendment, which limits taxation by the state and local governments.
Results	In 2018, the State Auditor received supporting data and reviewed 4,814 property tax rates for 2,798 taxing authorities. Of the rates reviewed, 495 are debt service tax rates, 106 are new property tax rates approved by voters, and 52 are existing property tax rates that were increased by voter approval. We reviewed the remaining 4,161 tax rates for revenue neutrality. This is the fourth year since the review of property tax rates started in 1985 that no taxing authorities levied a tax rate that exceeded the tax rate certified.
Additional Comments	The State Auditor's Office has no authority to determine or review individual tax assessments. All individual tax assessment matters are the responsibility of the county assessor and board of equalization. Appeals to the state on tax assessment matters are handled by the Missouri State Tax Commission.

Because of the limited objectives of this review, no overall rating is provided.

NICOLE GALLOWAY, CPA **Missouri State Auditor**

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The State Auditor's Office is required by Section 137.073, RSMo, to annually review local property tax rates of all taxing authorities in the state. The primary objectives of this review were to determine whether:

1. Local governing boards levied taxes in accordance with the Missouri Constitution and state law.
2. Local property tax rates were adjusted to ensure property reassessments were revenue neutral.

Reassessments of existing property are not intended to increase property tax revenue but to equitably reallocate the existing tax burden based on the relative value of property owned by taxpayers.

For 2018, we received supporting data on 4,814 property tax rates of 2,798 taxing authorities. This is the fourth year since the State Auditor's Office started reviewing property tax rates that no taxing authorities levied a tax rate that exceeded the tax rate certified.

Property taxes are the main source of revenue for many of Missouri's special purpose political subdivisions and county boards. The bulk of property taxes, however, fund public schools. General acceptance of these taxes is dependent on fair and equitable assessment practices and public understanding and input regarding the setting of rates. If the tax burden is increased without voter approval, confidence in the fairness and assessment practices can be eroded.

2018 Property Tax Rates Results

Summary

The State Auditor received supporting data and reviewed 4,814 property tax rates for 2,798 taxing authorities. Of the rates reviewed, 495 are debt service tax rates, 106 are new property tax rates approved by voters, and 52 are existing property tax rates that were increased by voter approval. We reviewed the remaining 4,161 tax rates for revenue neutrality. This is the fourth year since the review of property tax rates started in 1985 that no taxing authorities levied a tax rate that exceeded the tax rate certified.

Methodology

The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file final proposed tax rates and data supporting the proposed property tax rates with the county, using forms prescribed by the State Auditor. The counties submit the supporting data received to the State Auditor for review. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.

The 2018 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Missouri Constitution, Article X, Section 22 (commonly referred to as the Hancock Amendment). Each tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of each tax rate ceiling is based on the assessed valuation for the entire political subdivision and is not calculated on an individual taxpayer basis.

To ensure taxing authorities do not receive a windfall from reassessment, the review of property tax rates begins with the prior year allowed revenue. Current year tax rate ceilings must be set to yield the same gross revenue as allowed in the prior year. In addition, an adjustment is made for additional revenue permitted for assessment growth. That adjustment is the lower of (1) the actual growth rate, (2) the inflation rate as determined by the consumer price index, or (3) 5 percent. Factors such as new construction and improvements, newly added territory, newly separated territory, and changes from locally assessed to state assessed property also affect the tax rate ceiling calculation. Counties and the City of St. Louis use the tax rates set by each taxing authority to assess taxes on all property including new construction and improvements.

Voters may authorize increases beyond the annual revenue neutral tax rate ceiling. Voter-approved increases are reviewed for compliance with applicable laws and stated ballot restrictions. In addition to reviewing new and existing property tax levies for revenue neutrality, the State Auditor's Office also reviews debt service tax rates. A tax levied to meet the annual debt service requirement is compliant if the revenue to be generated plus the existing fund balance does not exceed the current payment requirements plus a reserve for the following year's payments.

2018 Property Tax Rates Results

Sections 137.073.5(3) and 137.073.5(4), RSMo, provide that a voluntary reduction taken in a non-reassessment year (even numbered year) results in a reduced tax rate ceiling during the following reassessment year (odd numbered year). These provisions also allow taxing authorities that voluntarily reduce a tax rate in a previous even numbered year to reverse the impact of the voluntary reduction to reinstate a higher tax rate ceiling in the following even numbered year. To increase the tax rate in the following even numbered year, the taxing authority must conduct a public hearing, and adopt an ordinance, a resolution, or a policy statement justifying its action before setting and certifying its tax rate.

Section 137.073.6(3), RSMo, allows a taxing authority to submit amended tax rate forms to the State Auditor's Office in the event the taxing authority incorrectly completed the forms or made clerical errors. These changes are factored into the current year's tax rate ceiling calculation.

A taxing authority's total assessed valuation submitted by the county clerk or a representative of the taxing authority is used in the State Auditor's Office review of property taxes. The State Auditor's Office does not review the assessed valuation of individual pieces of property. Chapter 138, RSMo, governs the appeals process for assessed valuations. Citizens may appeal their individual assessed valuations calculated by the county assessor to the local Board of Equalization. Citizens not satisfied with the resolution by the Board of Equalization may appeal the decision to the Missouri State Tax Commission. Any decision of the Missouri State Tax Commission may be reviewed by a court of law.

As assessed valuations increase, tax rate ceilings generally decrease, depending on the amount of the increase, to produce substantially the same amount of revenue as allowed in the prior year. As assessed valuations decrease, tax rate ceilings may increase to produce substantially the same revenue as allowed in the prior year from existing property, limited by voter authorization. See Appendixes I and II for a summary of the changes in assessed valuation by type of taxing authority, and Appendixes III and IV for a summary of changes in tax rate ceilings by type of taxing authority. In addition, Appendix V is a map that provides a statewide geographical perspective of total county valuation changes prior to adjustments for new construction and reassessment. The total assessed valuation is the value used to bill the property tax rates. Appendix VI is a map of the adjusted assessed valuation by county. The adjusted assessed valuation is the value of last year's property in the current year. This map reflects the inflationary change in each county's valuation from the previous year. A significant inflationary change generally indicates a major reassessment occurred. However, 2018 assessed valuations indicate the majority of county adjusted assessed valuation changes were less than the consumer price index, which does not indicate a major reassessment increase. The comparison of assessed valuations and tax rate ceilings from 2017 to 2018 for Appendixes I through

2018 Property Tax Rates Results

VI give consideration to revisions submitted by taxing authorities to the State Auditor's Office for changes to assessments occurring after setting the 2017 property tax rate.

Taxing authorities are listed by primary county (as designated by the taxing authority when established) in Appendixes VII and VIII and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright followed by the City of St. Louis). A taxing authority located in more than one county is listed under the primary county only. The assessed valuations presented for taxing authorities in Appendixes VII and VIII, except school districts, include all taxable locally assessed and state assessed property. The assessed valuations presented for school districts include only taxable locally assessed property. The abated portions of property valuations that are not taxable under various economic development programs are omitted from the taxable assessed valuations used to compute the annual tax rate ceiling. Prior years' tax rate reports are available on the State Auditor's website at auditor.mo.gov.

We do not review sales tax rollbacks required by law for some county levies as part of this report. Any concerns in that area would be addressed in audit reports we issue for individual counties. Sales tax (Proposition C) rollbacks for school levies were subjected to a limited review to ensure the district did not waive all or part of the rollback without voter approval in order to generate additional local revenues. A majority of the 516 school districts have obtained voter approved waivers of the required sales tax rollback of their property tax, including 458 with a full waiver and 31 with a partial waiver. Appendixes VII and VIII indicate the 489 school districts that have either full or partial waivers of Proposition C reductions.

Total Revenue					<u>\$ 5,843,095,746</u>	

Legend:

- A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy.
- B A voter approved increase or decrease to an existing levy.
- C Levy includes a recoupment rate authorized by state law.
- D Levied a tax rate in excess of the legally permissible tax levy as provided by state law. No tax rate levied exceeded the legally permissible tax levy in 2018.
- E School district has a full Proposition C (sales tax) waiver allowing the district to reduce its required Proposition C reduction to \$0.0000 and levy up to its calculated tax rate ceiling.
- F School district has a partial Proposition C (sales tax) waiver allowing the district to waive a portion of its required Proposition C reduction to the extent necessary to collect \$2.7500 or the amount stated on the ballot.
- G Article X, Section 11(g) of the Missouri Constitution allows the Kansas City 33 School District School Board to set its tax levy at a rate that is lower than the court-ordered rate for the 1995 tax year (which was \$4.96). The rate so established may be changed from year to year by the School Board.

Notes:

Taxing authorities are listed by primary county and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright followed by the City of St. Louis). When a taxing authority is in more than one county, it is listed under the primary county only.

This Appendix does not list taxing authorities that levied a separate tax rate for each subclass of property. Previous legislation required taxing authorities wholly in St. Louis County and allowed the City of Gladstone in Clay County to calculate a separate tax rate on each subclass of property. Taxing authorities partially in St. Louis County, whether the primary county is St. Louis County or another county, are required to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions requiring the multi-rate calculation. See Appendix VIII for a listing of taxing authorities that calculated separate tax rates for each subclass of property.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both the taxing authority and the county or counties in which the tax rate is levied.

The Assessed Value column presents only the assessed valuation the property tax is levied against.

The revenue amount shown is computed by dividing the assessed valuation by 100 and multiplying the quotient by the tax rate levied.

Legend:

- A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy.
- B A voter approved increase or decrease to an existing levy.
- C Levy includes a recoupment rate authorized by state law.
- D Levied a tax rate in excess of the legally permissible tax levy as provided by state law. No tax rate levied exceeded the legally permissible tax levy in 2018.
- E School district has a full Proposition C (sales tax) waiver allowing the district to reduce its required Proposition C reduction to \$0.0000 and levy up to its calculated tax rate ceiling.
- F School district has a partial Proposition C (sales tax) waiver allowing the district to waive a portion of its required Proposition C reduction to the extent necessary to collect \$2.7500 or the amount stated on the ballot.

Notes:

This Appendix contains levy information for political subdivisions wholly in St. Louis County and the City of Gladstone in Clay County. Previous legislation required taxing authorities wholly in St. Louis County and allowed the City of Gladstone in Clay County to calculate a separate tax rate on each subclass of property. Political subdivisions partially in St. Louis County and partially in another county(ies) were also required by previous legislation to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions requiring the multi-rate calculation. See Appendix VII for a listing of taxing authorities that calculated a single tax rate to apply to all property.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both the taxing authority and the county or counties in which the tax rate is levied.

The Assessed Value column presents only the assessed valuation the property tax is levied against.

The revenue shown is computed by dividing the assessed valuation by 100 and multiplying the quotient by the tax rate levied.
