# CITIZENS SUMMARY

## Findings in the audit of the Malden Contract License Office

Background	The Department of Revenue has appointed 182 contract agents to operate contract license offices. These offices issue driver licenses; titles for motor vehicles, trailers, and marine craft; and license plates. Contract agents are compensated through transaction-based processing fees. Under a state law, which became effective in 2009, the State Auditor may audit contract license offices.
Accounting Controls and Procedures	The license office did not always accurately record the method of payment (cash, check, or credit card) and did not reconcile the composition of monies received to deposits. Our review of three deposits found cash payments recorded as check payments and check and credit card payments recorded as cash payments. We also noted three manual receipt slips for driving record purchases were not retained.
Contract Compliance	The DOR agent contract requires actual daily receipts be entered into the computerized system to accurately reflect any overages and shortages, but our July 10, 2013 cash count noted a shortage in collections for one of the cash drawers, which was not subsequently shown on the ending daily documentation. The agent contract requires the license office use a video camera with at least a 60-day memory, but the system had only retained recordings going back 55 days.
