

Findings in the audit of Valley R-VI School District Attendance Procedures

Low Attendance	Student attendance decreased significantly after the Superintendent's April 2019 letter that discouraged attendance. Although the Department of Elementary and Secondary Education disallowed the student attendance data for the date included in the Superintendent's letter, the district continued to experience low attendance during the remainder of the school year. As a result, the district met the goal noted in the letter of a lower Average Daily Attendance and was eligible for additional funding.
Attendance procedures and controls	The district's attendance system does not limit the time period when changes can be made and there is no review by district officials to ensure changes made to current school year attendance records are appropriate. The Superintendent has more access in the attendance system than required for his job duties.
