Office Of The
State Auditor Of Missouri
Claire McCaskill

December 2001

The following report contains certification information on taxing authorities throughout Missouri.

State law requires the Missouri State Auditor to annually check all taxing jurisdictions throughout Missouri as to their compliance with the tax limitation provisions of Missouri's Hancock Amendment. The following report shows whether or not a taxing jurisdiction has met its constitutional and statutory obligation to set an overall tax rate at a level approved by voters and within the bounds of limits set by Missouri's Constitution and the State Legislature.

IMPORTANT: The State Auditor's Office has no authority to determine or review individual tax assessments. Chapter 138, RSMo governs the appeals process for assessed valuations as they pertain to individual taxpayers.

All individual tax assessment matters are the responsibility of each county assessor and board of equalization. Appeals to the state on tax assessment matters are handled by the Missouri State Tax Commission.

All reports are available on our website: www.auditor.state.mo.us

CLAIRE C. McCASKILL
Missouri State Auditor

Honorable Bob Holden, Governor
and
Members of the General Assembly
Jefferson City, MO 65102

The State Auditor's Office is required to annually review local property tax rates of all taxing authorities in the state. The primary objective of the review is to determine whether local governing boards have levied taxes in accordance with state law, and in particular, to determine whether local rates have been adjusted to ensure that property reassessments are revenue neutral. Reassessments of existing property are not intended to increase tax revenue but to equitably reallocate the existing tax burden based on the relative value of property owned by taxpayers.

For 2001, we received substantiating data and issued a finding on 4,831 property tax rates of 2,705 taxing authorities. Less than twenty taxing authorities levied in excess of the tax rate certified resulting in approximately \$160,000 in excess tax levies. Of the 4,831 tax rates, 554 were debt service levies, 143 were new property tax rates approved by voters and, 71 rates reviewed were for existing property tax rates that were increased by voter approval. The remaining 4,063 levies reviewed are general types of levies.

Property taxes are often the main source of revenue for many of Missouri's special purpose political subdivisions and county boards. The bulk of property taxes, however, fund our public schools. General acceptance of these taxes is dependent on fair and equitable assessment practices and public understanding and input regarding the setting of rates. If the tax burden is increased without voter approval, confidence in the fairness of tax and assessment practices is often eroded.

RESULTS

Taxing Authorities Generally Complied with State Tax Laws

The State Auditor received substantiating data and reviewed 4,831 property tax rates for 2,705 taxing authorities. Of the rates reviewed, 554 were debt service levies, 143 were new property tax rates approved by voters and, 71 were for existing property tax rates that were increased by voter approval. The remaining 4,063 levies reviewed are general types of levies. Less than 20 taxing authorities levied in excess of the tax rate certified. While varying factors contributed to these violations, improved awareness of Missouri law should help alleviate them.

The following Appendixes provide details for all political subdivisions regarding the tax rates levied for 2001:

Appendix V - Tax rate ceiling allowable under Hancock for 2001, 2000, and 1999
as well as the actual rate levied for 2001.

Appendix VI - Debt service levies reviewed.

Appendix VII - New levies reviewed.

Appendix VIII - Voter approved increases to existing levies.

Background

The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file data supporting the proposed property tax rates with the county, using forms prescribed by the Auditor. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.

State law requires Auditor to review tax rates
--

Review methodology

The 2001 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Article X, Section 22 of the Missouri Constitution (the Hancock Amendment). The tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of the tax rate ceiling is based on the assessed valuation for the entire political subdivision and is not calculated on an individual taxpayer basis.

To ensure taxing authorities do not receive a windfall from reassessment, our review of property tax rates begins with the prior year allowed revenue. This is the maximum amount of revenue a taxing authority would have received in the prior year. Current year tax levies must be set to yield the same gross revenue as was received on property that was owned in the prior year, in addition, an adjustment is made for additional revenue permitted for assessment growth that is the lower of, (1) the actual growth rate or, (2) the inflation rate, or (3) five percent. Factors such as new construction and improvements, newly added territory, newly separated territory, and changes from locally assessed to state assessed property also have an effect on the tax rate ceiling calculation. The collector uses this rate to assess taxes on all property including new construction and improvements.

Voters may authorize increases beyond the set limits. Voter-approved increases are reviewed for compliance with applicable laws and stated ballot restrictions. The State Auditor's Office also reviews debt service tax rates. A tax levied to meet the annual debt service requirement is generally viewed as reasonable if the revenue to be generated plus the existing fund balance does not exceed the current payment requirements plus a reserve for the following year's payments.

The total assessed valuation of a taxing authority that is submitted by the County Clerk or a representative of the political subdivision is used in the State Auditor's Office review of property taxes. The State Auditor's Office does not have authority to review the assessed valuation of individual pieces of property. Section 138, RSMo governs the appeals process for assessed valuations. Citizens may appeal their individual assessed valuations calculated by the County Assessor to the local Board of Equalization. Citizens not satisfied with the resolution by the Board of Equalization may appeal the decision to the Missouri State Tax Commission. Any decision of the Missouri State Tax Commission may be reviewed by a court of law.

Organization of Report Content

Taxing authorities are listed by primary county and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright, followed by the City of St. Louis). When a taxing authority is located in more than one county, it is listed under the primary county only.

The assessed valuations presented for taxing authorities, except school districts, include all taxable locally assessed and state assessed property. The assessed valuations presented for the school districts include only taxable locally assessed property. The abated portions of property valuations that are not taxable under various economic development programs are omitted from the taxable assessed valuations used to compute the annual tax rate ceiling.

The actual rate levied was cross-checked with the Department of Revenue. Sales tax rollbacks required by law for some county levies were not reviewed as part of this report. Sales tax (Proposition C) rollbacks for school levies were subjected to a limited review where it appeared the district waived all or part of the rollback without voter approval to generate additional local revenues.

Summary of Assessed Valuation and Tax Rate Ceiling Changes

As assessed valuations increase, tax rate ceilings generally decrease depending on the amount of the increase to produce substantially the same amount of revenue as the prior year. See *Appendix I* for a more detailed summary of the changes in assessed valuation, by type of taxing authority. In addition, see *Appendix II* for a more detailed summary of changes in tax rate ceilings, by type of taxing authority.

Changes in Assessed Valuation

Changes to Tax Rate Ceilings

The “Other” category includes levies for which only the current year’s assessed valuation was used in the computation of the 2001 tax rate (i.e. debt service levies, newly voted levies, and levies voted to replace expired levies), levies with no change in assessed valuation, and dissolving levies.

Geographic Impact of Reassessment

Appendix III is a map that provides a statewide geographical perspective of county valuation growth due to new construction growth and reassessment from 2000 to 2001. *Appendix IV*, however, is a map that reflects the inflationary change in each county’s valuation from the previous year. A significant inflationary change generally indicates a major reassessment occurred within the county.

School Districts Using Amendment 2 to Increase Tax Rates

The 124 schools listed in *Appendix IX* increased taxes and revenues by \$30,502,514 without voter approval by utilizing the Constitutional Amendment No. 2 approved by voters on November 3, 1998, which allows school districts to levy a minimum of \$2.7500, per \$100 of assessed valuation, by school board vote.

124 Schools used Amendment 2 to levy \$2.7500 by school board vote
--

In addition, *Appendix X* lists the 439 schools with full or partial waivers of Proposition C (sales tax) reductions. These school districts obtained voter approval to not roll back the required amount for

Proposition C. The list includes 92 schools with partial Proposition C waivers and 347 schools with full Proposition C waivers. The rest of the 83 schools do not have a Proposition C waiver.

Tax Rates Levied in Excess of the Tax Rate Certified

Table 1.1 lists the 18 taxing authorities that levied 20 tax rates in excess of the legally permissible tax levy as provided by state law. Excess revenues collected totaled \$159,690.

* The Certified Rate column represents the rates determined to be legally permissible based on the information submitted by the taxing authority. The adequacy of any sales tax reduction was not reviewed when compiling this report. The Iconium Fire Protection District has not received voter approval for the specific tax levy. The highlighted taxing authorities levied an excess tax rate only on the portion of the district's assessed valuation noted above. The excess tax revenue is computed by multiplying the excess tax rate (actual rate levied – certified rate) by the assessed valuation and dividing by 100.

In addition, Table 1.2 below, lists the 5 taxing authorities from Table 1.1 above that also violated Article X, Section 3 of the Missouri Constitution which requires taxes levied to be uniform upon the same class or subclass of subjects within the territorial limits of the authority levying the tax.

LEGEND:

- * A new voter-approved tax rate, a new voted increase, or a newly formed district.
- ** Levy did not exist in the given year or was not certified due to insufficient substantiating data.
- # Levy includes a recoupment rate authorized by state law.

NOTE:

All rates in the 2001 Levied column represent the rate extended and certified to the Department of Revenue by the political subdivisions' primary county.

- Ⓐ The Kansas City 33 School District is under court order to support desegregation.
- Ⓑ The Camden County Clerk entered an erroneous \$0.5100 on the tax books for the Ambulance Levy instead of \$0.2100. Camden County is under court order to rebate the excess tax rate.

Total Revenue Generated from New Levies					<u>\$10,500,069</u>	

NOTE:

The revenue generated is computed by multiplying the tax rate by the assessed valuation and dividing by 100.

The tax rates listed above were approved by voters at an election held after the 2000 tax rates were set and, thus, 2001 was the first year the additional voter-approved rates or rate increases were levied.

----------------------------------	--------------

NOTE:

The increase in revenues is computed by multiplying the decrease in tax rate reduction (Prop C required reduction - Prop C reduction taken) by the assessed valuation and dividing by 100.

Missouri Constitutional Amendment No. 2 approved by voters on November 3, 1998 allows school districts to levy a minimum of \$2.7500 by school board vote only.

NOTE:

All schools listed in Appendix 6 have voter approval for either a full or partial waiver. If a school is not included on this list, then the school does not have a voter approved proposition C waiver.

A partial waiver allows a school to partially waive its required proposition C (sales tax) reduction to the extent necessary to collect \$2.7500 or waive the amount stated on the ballot. While a full waiver allows a school to reduce its required proposition C reduction to \$0.0000 and levy up to their calculated tax rate ceiling.
