## **NICOLE GALLOWAY, CPA**

### **Missouri State Auditor**

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of July 2021 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs when the state implements Medicaid expansion, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In July, the state spent \$408 from federal ARP Act assistance (Appendix A). Through the end of July, the state has received \$132 million and spent \$13.8 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

Nicole R. Galloway, CPA  
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
Audit Manager:	Alex R. Prenger, M.S.Acct., CPA, CISA, CFE, CGAP
Senior Auditor:	Jeffrey Roberts, CISA, CFE
Staff Auditor:	Kristin A. Clink, MBA, CISA, CFE

# Federal ARP Act Funding for COVID-19 Recovery

July 2021

## Executive Summary

---

### Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of July 31, 2021, approximately \$10.48 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

### State and local fiscal recovery funding

Of the awarded amounts, \$2.69 billion is for state fiscal recovery funding and \$2.473 billion is for local fiscal recovery funding. The local government recovery funding is \$1.192 billion for counties, \$831 million for cities with a population generally of 50,000 or more, and \$450 million for other local jurisdictions with populations generally below 50,000. The award also includes \$196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for the following purposes:

- Respond to the COVID-19 emergency and address its economic effects, including through aid to households, small businesses, nonprofit organizations, and industries such as tourism and hospitality. For example household assistance could be for rent, mortgage, or utility costs incurred by the household prior to March 3, 2021, provided that state did not incur the cost of providing such assistance prior to March 3, 2021. Funds may be used for vaccine incentive and back to work incentive programs.
- Provide premium pay to essential employees or grants to their employers. Premium pay cannot exceed \$13 per hour or \$25,000 per worker. Federal interim rules emphasize the need for recipients to prioritize premium pay for lower income workers. Premium pay that would increase a worker's total pay above 150 percent of the greater of the state or county average annual wage requires specific justification for how it responds to the needs of these workers. Recipients may provide premium pay retrospectively for work performed at any time since the start of the COVID-19 public health emergency. Such premium pay must be "in addition to" wages and remuneration already received and the obligation

July 2021  
Executive Summary

---

to provide such pay must not have been incurred by the recipient prior to March 3, 2021.

- Provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue. The calculation of lost revenue begins with the recipient's revenue in the last full fiscal year prior to the COVID-19 public health emergency and includes the 12-month period ending December 31, 2020, but use of funds for government services must be forward looking for costs incurred by the recipient after March 3, 2021.
- Make investments in water, sewer, and broadband infrastructure. Recipients may use awarded funds to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

The state and cities and counties with populations of more than 250,000 residents have to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also have to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter.

Other jurisdictions receiving their distribution from the state must file that report by April 30, 2022, but only annually thereafter.

## Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) <sup>1</sup> funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri's voter-enacted Medicaid expansion is scheduled to begin accepting applications in October 2021.
- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.
- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

## Education funding

The Department of Elementary and Secondary Education will receive \$1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive \$68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive \$627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

---

<sup>1</sup> Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

<sup>1</sup> This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, in June 2021 the DED made a one-time use of the fund to receipt \$107,860,096 in ARP Act awards due to grant drawdown and budgetary timing challenges.
