Officials from the **Office of the State Public Defender** indicated no fiscal impact.

Officials from the **Secretary of State's Office** indicated:

This petition would create a "Missouri Citizens' Commission on Ballot Questions" which would be responsible for preparing summary statements for ballot measures. As part of the process of assembling said committee, the Secretary of State's Office will be required to mail applications for the office of commissioner to at least 0.5% of all registered voters, as determined on December 15 of the election year. Based on current registration counts, this would require approximately 22,400 mailings, with additional mailings possibly required depending on the number of responses received. Assuming that some form of return notice is necessary, the cost of printing and postage for each mailer is estimated at \$1.40, for a minimum cost of \$31,360 each odd-numbered fiscal year beginning in FY 2027.

They also provided the following information:

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$8 million based on the cost of the 2024 primary and general election reimbursements.

The Secretary of State's office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY24 petitions cycle, the SOS estimates publication costs at \$60,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

The Secretary of State's office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, we reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from **Carter County** indicated no fiscal impact.

Officials from **Clay County** indicated no fiscal impact.

Officials from **Clinton County** indicated no fiscal impact.

Officials from **Greene County** indicated: *

In reviewing initiative petition 26-015, there will be an increased cost to the County of Greene if voters vote to amend Article III. Those cost are noted in the following estimate for this IP.

The language allows the legislature to set a special election date. If they choose to set it for an April election or a stand-alone election the State of Missouri would pay the county for the cost to administer the election. With that understanding the cost to administer an election during an April election with proportional cost sharing by each political subdivision is shown in this estimate, as well as the costs to administer an election when the State of Missouri is the only entity with a question on the ballot.

Scenario 1 – State Proportional Share of Costs – April General Municipal election

The April election statutory proportional share of costs fluctuates each year depending on how many local entities submit questions for the ballot. This estimate submitted is based on the April 2024 election costs. The total cost to administer the April 2024 election for all entities was **\$343,180.21**. The estimated cost total fore the State of Missouri share of the proportional cost from the **\$343,180.21** total is estimated to be **\$115,053.52**.

Scenario 2 – State only Cost

A countywide special election where the State of Missouri is the only entity on the ballot with a question for voters is estimated to be a total cost of **\$278,467.80**.

Officials from **Macon County** indicated no fiscal impact.

Officials from **Madison County** indicated no fiscal impact.

Officials from **McDonald County** indicated:

This sounds absolutely insane and cumbersome to all involved just to be able to put things on a ballot. I feel like this random selection that is designated to the chief election official will trickle down to the local election authorities to receive applications at a local level and submitting them higher up. This needs to be revamped and re thought. *

*** Explanation of Exclusion of Fiscal Note Information From the Fiscal Note Summary**

The State Auditor's Office is excluding the response from McDonald County because it is unknown whether any of the responsibilities of the chief election official of the state would or could be delegated to local election authorities.

The State Auditor's Office is excluding the response from Greene County because the election related costs are unknown since it is unknown whether the legislature would approve calling any special elections. Further, the governor can currently call a special election on statewide ballot issues, and this initiative petition would replace that authority by making it subject to an 80% approval by each the House and Senate.

Fiscal Note Summary

State governmental entities estimate costs of at least \$31,000 each odd-numbered state fiscal year beginning in fiscal year 2027. Local governmental entities estimate no costs or savings.
