To Whom It May Concern:

Please accept this as a request pursuant to the Missouri Sunshine Law § 610.011. I am requesting access to and a copy of any communications — including but not limited to emails, letters, memos, calendar invites/entries and text messages — between staff and members of the Office of the Missouri State Auditor and staff and members of the Missouri Attorney General's Office. Please limit your search from Dec. 1, 2023 through the date at which this request is fulfilled.

As you know, the Sunshine Law requires a response within three business days. If you expect the records to take longer to produce, the law requires you provide an estimated date when I can expect to receive them and an explanation for the delay.

The Sunshine Law allows reasonable fees associated with producing records. Please notify me if the fees to produce the requested records will exceed \$100. However, as a journalist for the Missouri Independent, I am requesting these records in the interest of gathering information for the public about climate and health and would request any fees be waived. These records are not being sought for commercial purposes.

If you feel part or all of the requested records are closed under the Sunshine Law, please cite the appropriate exemption you feel justifies the withholding of the records. If parts of the record are closed, please redact those portions and release the rest of the record to me.

Please make your release on a rolling basis. If some of the requested records are immediately available, please provide them while you compile the rest of the request. If possible, I would prefer to receive the records electronically.

Respectfully,
