Vision, Mission, and Values

Vision

To review, investigate and assist state government and other political subdivisions to help ensure efficiency and accountability for the citizens of Missouri.

Mission

To improve the efficiency and effectiveness of Missouri government and other political subdivisions by providing accurate and timely information in our audit reports designed to:

- * Reduce waste and eliminate opportunities for fraud.
- * Account for taxpayer dollars.
- * Review and report the performance of programs, agencies and institutions.
- * Recommend ways to improve operations, fiscal accountability and taxpayer services.
- * Educate citizens and policymakers regarding the operation of their government.

Values

In pursuing our mission we value integrity, respect, accountability, reliability, and excellence. We succeed through the work of our excellent employees, who are leaders at every level of our organization. Our values reflect what we believe to be the most important qualities needed for our success.

Duties of the State Auditor

Duties of the State Auditor

Under various Missouri statutes and regulations, the State Auditor is responsible for auditing all state agencies, boards and commissions; the state court system; counties that do not elect a county auditor; and other political subdivisions, such as municipalities upon petition by the voters of those subdivisions. The State Auditor may also audit public employee retirement and healthcare systems, Department of Revenue contract license offices, school districts, and transportation development districts. The Missouri State Auditor's office (SAO) is the independent auditor for the citizens of the state. The SAO provides information about the operations of state and local governments to the public and government leaders. Our goal is to help improve the performance and accountability of state and local government by assessing fiscal and management controls, efficiency and effectiveness, and legal compliance. This information helps ensure the reliability of management and financial systems within the state. Our work is conducted in accordance with applicable professional standards.

All audits are conducted in an impartial, nonpartisan manner, in accordance with government auditing standards issued by the United States Government Accountability Office. Our audit staff adhere to the rigorous standards of the auditing profession and exercise the highest levels of integrity and ethics. Audit findings and recommendations are based upon reliable evidence free from preconceived ideas and the influence of personal opinions.

We play a crucial role by providing useful information to decision makers and helping Missouri change for the better. We assist legislators as they research issues and make laws that affect the citizens of Missouri. We support state agencies and counties with our knowledge and skills as they solve problems, address audit findings, and plan strategies for their future success. We support state agencies, counties, and citizens in several ways:

- * Recommend cost-saving improvements to management.
- * Maximize the value of our audit work by using the most effective methods for managing strategy, operations, and people.

Our work helps state agencies and local governments understand emerging issues that are broad in scope and cut across government entities. The SAO turns data and information into knowledge, which can then be used to make the best decisions for the citizens of Missouri.

Duties of the State Auditor

Audits

We perform various types of audits such as:

State Government Audits: The State Auditor conducts audits of state agencies and departments, boards and commissions, statewide elected officials, the legislature, state public employee retirement and healthcare systems, specific programs or issues, the state's financial statements, and federal awards expended by the state.

County Audits: The State Auditor conducts audits in counties that do not elect a county auditor.

Petition Audits: The State Auditor conducts audits of any political subdivision of the state, such as municipalities, school districts, water districts etc., upon successful petition by the voters of that political subdivision.

Court Audits: The State Auditor conducts audits of circuit and municipal courts.

Local Audits: The State Auditor conducts audits of local public employee retirement and healthcare systems and certain political subdivisions, including school districts and transportation development districts.

Bond Registration

The SAO is responsible for reviewing and registering general obligation bonds issued by political subdivisions in Missouri. This process ensures compliance with both state law and the conditions of the contracts under which the bonds will be issued.

Review of Property Tax Rates

State law requires the State Auditor to annually check compliance with the tax limitation provisions of Missouri's Hancock Amendment for all taxing jurisdictions in the state. Our report identifies whether or not a taxing jurisdiction has met its constitutional and statutory obligation to set property tax rates at levels approved by voters and within the limits set by Missouri's Constitution and state law.

Fiscal Notes

The SAO is responsible for assessing the fiscal impact of initiative petitions proposing constitutional or statutory changes that citizens file with the Secretary of State. The office is also responsible for assessing the fiscal impact for Missouri General Assembly adopted joint resolutions proposing constitutional amendments or bills without a fiscal note summary, which are to be referred to a public vote. The

Duties of the State Auditor

fiscal note and fiscal note summary for each petition or resolution states the measure's estimated cost or savings, if any, to state and local governmental entities.

Core Values

Core Values

Our core values provide the foundation for our work. In pursuing our mission, we value:

Integrity

Integrity is the foundation of our credibility. To serve the citizens of the state, we provide non-partisan, non-ideological, and fair information. We set high standards for ourselves and our work, and we take personal responsibility for our actions. We follow the highest ethical and professional standards, and we remain independent in our work.

Respect

We develop and maintain relationships based on trust, cooperation, collaboration, and open communication with state agencies, local governments, citizens, and our employees. We recognize that we may not always agree, but we express differences with respect.

Accountability

To help government leaders oversee programs and operations, our multidisciplinary staff seeks to enhance the accuracy of information provided to increase the effectiveness, efficiency, and credibility of Missouri government.

Reliability

We produce reports that are accurate, objective, useful, clear, and candid. We expect the results of our audit work to add value to the operations of state and local governments.

Excellence

We achieve excellence through motivated and constantly improving employees upon whose knowledge, abilities and initiative we depend. In a rapidly changing world, we address the increasingly complex issues facing the state as a result of tight budgets, technological advances, a growing and changing state workforce and population, and the global challenges that affect our state. We sustain a work environment that supports learning, innovation, and change, all essential for achieving excellence in the 21st century.

To help Missourians play a direct role in bringing about better and more efficient government, the SAO welcomes questions and information from the public. We have a HOTLINE to encourage the public to share suggestions that will save the state money, prevent abuse, or prevent the waste of public funds.

The following situations could indicate a potential problem in state or local government:

- * A pattern of not issuing receipts for cash payments.
- * One person responsible for receipting, recording and depositing payments received.
- * Major purchases made without obtaining bids.
- * Documentation unavailable or officials unwilling to provide documentation.
- * General lack of an "open door" policy regarding government operations.
- * Employee behavior inconsistent with what is expected of government employees.

E-Mail Address

You can e-mail any questions or concerns to us at moaudit@auditor.mo.gov

Website

You can access our website at <http://auditor.mo.gov>

Audit reports are available on the website. The reports are categorized to help you locate specific reports quickly and easily. Each audit report is supported by a "Citizens Summary" and "Recommendation Summary" to help you identify the results.

Contact Information

In addition, bonds registered with the office are posted on the website. The date of registration, the political subdivision issuing the bond, and the bond amount are listed on the site. There is also a link to the registration report for each bond that provides additional information, such as the bond's purpose and the election results.

Other information available on the website includes a whistleblower reporting form, political subdivision financial reports, sunshine law requests made to the office and the corresponding response, and fiscal notes for proposed ballot measures.
